

### **a history of japan pdf**

The first human habitation in the Japanese archipelago has been traced to prehistoric times. The Jōmon period, named after its "cord-marked" pottery, was followed by the Yayoi in the first millennium BC, when new technologies were introduced from continental Asia. During this period, the first known written reference to Japan was recorded in the Chinese Book of Han in the first century AD.

### **History of Japan - Wikipedia**

The economic history of Japan is most studied for the spectacular social and economic growth in the 1800s after the Meiji Restoration, when it became the first non-Western great power, and for its expansion after the Second World War, when Japan recovered from devastation to become the world's second largest economy behind the United States, and from 2013 behind China as well.
