Category:Agricultural machinery - Wikipedia

Mechanisation is the process of changing from working largely or exclusively by hand or with animals to doing that work with machinery. In an early engineering text a machine is defined as follows: Every machine is constructed for the purpose of performing certain mechanical operations, each of which supposes the existence of two other things besides the machine in question, namely, a moving ...

Mechanization - Wikipedia

The levels of agricultural mechanization on some farms in two states in Southwest of Nigeria were measured and the productivity of each of the surveyed farms was analyzed.
