ACS Catalysis Science & Technology Division â€œ Early Career in Catalysis This award will recognize and encourage accomplishments and innovation of unusual merit by an individual in early stages of their career.

Awards - Catalysis Science & Technology

The Catalysis Science and Technology Division started out as the Catalysis Secretariat, at a time when ACS secretariats were employed to coordinate multi-disciplinary activities, too broad for any one division within the ACS. The objective of the former Catalysis Secretariat was to encourage the generation of science and technology of catalysis and surface chemistry, for the benefit of mankind.

Lecture 1 . Introduction to catalysis . The science and technology of catalysis is of great significance as it affects our daily life. Four major sectors of the world economy; petroleum and energy production, chemicals and polymer production, food industry and pollution control, involve catalytic processes.
