With cluster zoning, land is used more efficiently. Development occurs on the most buildable portion of land, taking into consideration surrounding natural features and, due to their compact nature, reducing sprawl and high servicing costs. Cluster housing may have a range of densities, from small lots to townhouse developments.

Cluster Housing Prototype The designs for cluster housing were initially created for a low income housing area in Redfern, an inner-city suburb of Sydney. The architect's main objective was to make sure that the traditional 19th century workers cottage aesthetic would not be overrun by a newly introduced aesthetic.
