Competing with the Soviets – Audra J. Wolfe

Competing with the Soviets offers a short, accessible introduction to the special role that science and technology played in maintaining state power during the Cold War, from the atomic bomb to the Human Genome Project.

Competing with the Soviets: Science, Technology, and the

Competing with the Soviets requires at least a 10-20 year perspective because major force investments (e.g. new missiles, tanks) impact over a longer time period.

THE OF COMPETITION develop the long term in competition

Competition with the Soviets also has a useful global dimension, and Wolfe sheds light on how Americans attempted to use "development" as a tool against communist gains in the developing world.

Competing with the Soviets offers a short, accessible introduction to the special role that science and technology played in maintaining state power during the Cold War, from the atomic bomb to the Human Genome Project.

Competing with the Soviets (Johns Hopkins Introductory

Although not, strictly speaking, a chronological account, Competing with the Soviets covers the entire Cold War, including, in the final chapters, the collapse of the Soviet Union and the Second Cold War.

Audra J. Wolfe. Competing with the Soviets: Science

There is little mention of the Soviets until the third chapter so it is often up to the reader to infer the extent to which American scientists were competing with their Russian counterparts. Later chapters do address this in greater detail although the bulk of the story is exclusively American in focus.
