Essentialism is the view that every entity has a set of attributes that are necessary to its identity and function. In early Western thought Plato's idealism held that all things have such an "essence" – an "idea" or "form". In Categories, Aristotle similarly proposed that all objects have a substance that, as George Lakoff put it "make the thing what it is, and without which it would be not ...

A need is something that is necessary for an organism to live a healthy life. Needs are distinguished from wants in that, in the case of a need, a deficiency causes a clear adverse outcome: a dysfunction or death. In other words, a need is something required for a safe, stable and healthy life (e.g. food, water, shelter) while a want is a desire, wish or aspiration.
