

optics and focus for pdf

In geometrical optics, a focus, also called an image point, is the point where light rays originating from a point on the object converge. Although the focus is conceptually a point, physically the focus has a spatial extent, called the blur circle. This non-ideal focusing may be caused by aberrations of the imaging optics. In the absence of significant aberrations, the smallest possible blur ...

Welcome to gw optics.org!These pages provide information and software related to gravitational wave detection, with a special focus on optics research. This page also hosts outreach material of the Gravitational Wave Group Birmingham, UK, supporting the efforts by GEO 600 and the LIGO Scientific Collaboration.
