Design is the creation of a plan or convention for the construction of an object, system or measurable human interaction. Design has different connotations in different fields (see design disciplines below). In some cases, the direct construction of an object (as in pottery, engineering, management, coding, and graphic design) is also considered to use design thinking.

Design - Wikipedia

Grounded in Research. We take great pride in the fact that Second Step is based on current research in the field. Translating research findings into key components of our programs allows us to be confident our curricula will be effective in classrooms.
