

strategic materials technologies to pdf

Strategic material is any sort of raw material that is important to an individual's or organization's strategic plan and supply chain management. Lack of supply of strategic materials may leave an organization or government vulnerable to disruption of the manufacturing of products which require those materials. It can also refer to a group or department that manages these materials.

1. Introduction. Today's exchanges of raw materials, manufactured goods, money, and information are global and highly interconnected, and recent supply shortages in metals, coupled with high demand, have led to an increased interest in examining issues of supply risk under the framework of resource criticality assessments. An obvious example of recent supply disruptions is the magnitude 9 ...

A bioeconomy can be defined as an economy where the basic building blocks for materials, chemicals and energy are derived from renewable biological resources. This paper provides an overview of the bioeconomy in Europe, examining it from a policy framework and concept perspective. The role of bioenergy in the bioeconomy is discussed particularly through biofuels for transport and biorefineries.
