farmdoc - Management

In economics, an externality is the cost or benefit that affects a party who did not choose to incur that cost or benefit. When there is no externality, allocative efficiency is achieved; however, this rarely happens in the free market. [unreliable source?] [better source needed]. Economists often urge governments to adopt policies that will "internalize" an externality, so that costs and ...

Externality - Wikipedia

Economic growth is the increase in the inflation-adjusted market value of the goods and services produced by an economy over time. It is conventionally measured as the percent rate of increase in real gross domestic product, or real GDP.. Growth is usually calculated in real terms - i.e., inflation-adjusted terms # to eliminate the distorting effect of inflation on the price of goods produced.
