full frame when a cup has been previously empty, and that a speaker uses the empty frame when a cup has been full of water. Therefore, the reference point influences speaker's choice of frame. The reference point hypothesis is intriguing in that it not only predicts how a speaker selects a frame, but also explains why decision makers are influenced by framing (Sher & McKenzie, 2006, 2008).

2. Frame Based Segmentation Model 2.1. Frames and Framelets In this subsection, we will briefly introduce the concept of tight frames and framelets. Interesting readers should consult [18, 19, 20] for theories of frames and framelets, [21] for a short survey on theory and applications of frames, and [22] for a more detailed survey.
