Debunked: NASA War Document Exposed (The Future is Now)

All time - the past, the present and the future - is contained in the now. This applies to life; it is not just a theory. You were something yesterday; an incident takes place today that changes, modifies, slightly alters the past, and the future is what you are now, modified. That is, the past, the present and the future are now; tomorrow is now.

There is now a broad consensus that AI research is progressing steadily, and that its impact on society is likely to increase. The potential benefits are huge, since everything that civilization has to offer is a product of human intelligence; we cannot predict what we might achieve when this intelligence is magnified by the tools AI may provide, but the eradication of disease and poverty are not unfathomable.
