4 CHAPTER 1 PHYSICAL GEOGRAPHY: EARTH ENVIRONMENTS AND SYSTEMS environmental diversity that exists on our planet. Developing this understanding is the goal of a course in physical geography. The Study of Geography Geography is a word that comes from two Greek roots. Geo-

Physical Geography: Earth Environments and Systems 1

The geologic time scale is a system of chronological dating that relates geological strata to time. It is used by geologists, paleontologists, and other Earth scientists to describe the timing and relationships of events that have occurred during Earth's history. The table of geologic time spans, presented here, agree with the nomenclature, dates and standard color codes set forth by the International Commission on Stratigraphy.

Geologic time scale - Wikipedia

Biogeography is the study of the distribution of species and ecosystems in geographic space and through geological time. Organisms and biological communities often vary in a regular fashion along geographic gradients of latitude , elevation , isolation and habitat area . [1]
