Conspicuous in Swedenborg's thought all along was the premise that there is a God and the presupposition of that whole element in life which we call the spiritual. As he pushed his studies into the fields of physiology and psychology, this premised realm of the spirit became the express goal of his researches.

This book was not what I had hoped it would be, which was a clear overview of Swedenborg's beliefs. Instead what you get is a series of quotes from different Swedenborg works about different topics picked by the editors. Still there were some interesting ideas, some similar to standard Christian belief others wildly different.
