How to use mammoth in a sentence. Synonym Discussion of mammoth.

### **Mammoth | Definition of Mammoth by Merriam-Webster**

All of the earliest quotations indicate that English-speakers first encountered the word as a result of the discovery of mammoth bones in Siberia, and this suggests to lexicographers (or dictionary-compilers) that the word may have entered English from one of the languages in that area.

### **'mammoth' | Oxford English Dictionary**

Originally published 30 years previously on 15th April 1755, the mammoth tome took Johnson nearly 9 years to complete, remarkably almost completely single-handedly, and is now considered as one of the most influential dictionaries in the history of the English language.

### **Samuel Johnson's Dictionary of the English Language (1785)**

Depending on the species or race of mammoth, the diet differed somewhat depending on location, although all mammoths ate similar things. For the Columbian mammoth, *M. columbi*, the diet was mainly grazing. American Columbian mammoths fed primarily on cacti leaves, trees, and shrubs. These assumptions were based on mammoth feces and mammoth teeth.

### **Mammoth - Wikipedia**

Mammoth came into English in the early 17th century, as a name for any of a number of elephantine mammals; our language took it from the Russian word for these beasts, mamont. By the beginning of the 19th century the word had undergone a functional shift, taking on a new role as an adjective, with the meaning of "of very great size."
